The 6G7 series or Cyclone V6 engine is a series of V6 piston engines from Mitsubishi Motors. Five displacement variants have been produced from 1986 to present day, with both SOHC and DOHC, naturally aspirated and turbo charged layouts. While MIVEC variable valve timing has also been implemented in some versions the 2.5, 3.0 and 3.5 L versions were also available with gasoline direct injection.

I have a Mitsubishi Pajero 3.5 V6 DOHC 24v petrol engine code 6G74 that I am stripping for spares. Engine was used on 1995,1996,1997,1998,1999,2000,2001,2002 and 2003 Mitsubishi Pajero 3500. I only have the engine for stripping - no body or interior or drivetrain parts. It dropped a conrod and was replaced with a used motor, but was running fine until then.

~~Mitsubishi Pajero 1999 3.5V6 DOHC 24v 6G74 engine ...~~

Hi everyone I am planning to replace the lash adjusters on my 1996 3.5 V6 Pajero. Mitsubishi want R7000 for the 24 lifters and then valve cover seal kit and labour on top of that. That's way more than 10% of the vehicle's value. What are my other options? I have been told of a top quality non genuine part and a poor quality non genuine part that should be avoided.

~~6G74 lash adjusters / lifters - 4x4 Community Forum~~
