This first volume of a major reassessment of the last five centuries of German history deals with that age of German history which had the widest effect on the rise of modern Western civilization. Against the background of medieval culture, the author shows the origins of Luther's religion and the growth of various Protestant churches, as well as the subsequent restoration of the Roman Catholic Church.

This concluding volume of a three-volume reassessment of the last five centuries of German history develops the theme of power into what Gordon A. Craig calls a "masterly account of the dramatic, tragic and often shameful history of Germany in the most recent age" (New York Times Book Review). It deals with the period of nationalism and imperialism, from the abortive attempt of popular forces to found a liberal national state and Bismarck's German unification through the Prussian military ...

Germany - Germany - History: Germanic peoples occupied much of the present-day territory of Germany in ancient times. The Germanic peoples are those who spoke one of the Germanic languages, and they thus originated as a group with the so-called first sound shift (Grimm's law), which turned a Proto-Indo-European dialect into a new Proto-Germanic language within the Indo-European language family.
