~~Garcia, Reuben / AP Biology Websites~~

Adhesion. Polymerization. Correct answer: Adhesion. Explanation: Water is a polar molecule, and thus can adhere to different surfaces; thus, adhesion is the correct answer here. Cohesion is close, as cohesion describes the ability of water to stick to itself due to its polarity. We want the property that allows water to stick to other surfaces, not to itself.

~~Biochemical Concepts—AP Biology—Varsity Tutors~~

Frontline Biology + AP Biology Course Description: Fontline Biology is an 8-week class, with one session per week, one hour per session. In each session, Dr. Lin will introduce important concepts in Biology and connect them with the most advanced scientific researches at the frontline of Biology.
