Blueprint for Survival - NSS CDS

Basic Cave Diving: Blueprint for Survival outlines the factors that contribute to cave diving fatalities and how to avoid them. These include: Maintain a continuous guideline to open water. Follow the Rule of Thirds. Avoid deep cave dives. Have at least three sources of light. Curiously, while the book mentions both Cavern and Cave Diver training, this is not listed as one of the Rules of Accident Analysis (although it is since been added). Four decades later, these rules still form the ...

Basic Cave Diving: A Blueprint for Survival - Wikipedia ...

Sheck Exley was an American cave diver. He is widely regarded as one of the pioneers of cave diving, and he wrote two major books on the subject: Basic Cave Diving: A Blueprint for Survival and Caverns Measureless to Man. On February 6, 1974, Exley became the first chairman of the Cave Diving Section of the National Speleological Society. During his career, he established many of the basic safety procedures used in cave and overhead diving today. Exley was also a pioneer of extreme deep scuba di

Sheck Exley - Wikipedia

Cave divers wearing sidemount cylinders following a main line. Most cave divers recognize five general rules or contributing factors for safe cave diving, which were popularized, adapted and became generally accepted from Sheck Exley 's 1979 publication Basic Cave Diving: A Blueprint for Survival.
