ULTIMA® Carburetors use a flange mount intake manifold system.

The insulator block (sold separately) should go between the intake manifold and the carburetor (figure 1).

The carburetor will have an o-ring installed in a groove that will go towards the flat part of the insulator block.

Like you, I've read alot of posts about the new Ultima R1 and R2 carbs that are copies of the S&S Super E and G. Most if not all of those posts are pro S&S. Most of the "opinion" is that Ultima ripped S&S off, and S&S in made in the USA and Ultima's are not. Aside from the Horse article (which I have never read or seen,
