Closed Hearts is the second book in this Mindjack Trilogy and I think it's even better than the first one. This story is original, fast paced and full with action. I did had some problems at the start of the book with remembering what happened in the first book and with remembering the meaning of some words the author made up for this series.

When you control minds, only your heart can be used against you. Eight months ago, Kira Moore revealed to the mindreading world that mindjackers like herself were hidden in their midst. Now she wonders if telling the truth was the right choice. As wild rumors spread, a powerful anti-jacker politician capitalizes on mindreaders' fears and strips jackers of their rights. While some jackers flee to Jackertown—a slum rife with jackworkers who trade mind control favors for cash—Kira and her family hide from the readers who fear her and jackers who hate her. But when a jacker Clan member makes Kira's boyfriend Raf collapse in her arms, Kira is forced to save the people she loves by facing the thing she fears most: FBI agent Kestrel and his experimental torture chamber for jackers. When mindreaders run the world, being a jacker makes you a weapon. Zeph can break open the toughest minds—or lock the weakest—which only means every Clan leader wants to own him. He did as he was told, kept his head down, and tried to shut out the screams. But when they came after his family, he hugged his kid sister goodbye and ran away to keep them safe. For two years, he's passed as a reader. Then his family disappears, readers start changing into super jackers, and Zeph is forced to return to a city filled with jackers who hate him. To find his family, he must trick a mindware CEO into helping him, avoid a girl who knows him too well, and spy on the most powerful jacker in the state. All without dying or revealing his abilities—or being caught in the firestorm of hate between jackers and readers that's threatening to pull the world apart. The bestselling Mindjack Series continues with an all new character and a world of mindreaders and mindjackers as you've never seen it before. LOCKED TIGHT is the first of three Mindjack novels from Zeph's perspective. (See The Locksmith for Zeph's origin story.) When everyone reads minds, a secret is a dangerous thing to keep. Sixteen-year-old Kira Moore is a zero, someone who can't read thoughts or be read by others. Zeros are outcasts who can't be trusted, leaving her no chance with Raf, a regular mindreader and the best friend she secretly loves. When she accidentally controls Raf's mind and nearly kills him, Kira tries to hide her frightening new ability from her family and an increasingly suspicious Raf. But lies tangle around her, and she's dragged deep into a hidden underworld of mindjackers, where having to mind control everyone she loves is just the beginning of the deadly choices before her. When your mind is a weapon, freedom comes at a price. Four months have passed since Kira left home to join Julian's Jacker Freedom Alliance, but the hole in her heart still whistles empty where her boyfriend Raf used to be. She fills it with weapons training, JFA patrols, and an obsessive hunt for FBI agent Kestrel, ignoring Julian's worries about her safety and repeated attempts to recruit her for his revolutionary chat-casts. When anti-jacker politician Vellus surrounds Jackertown with the National Guard, Kira discovers there's more to Julian's concerns than she knew, but she's forced to take on a mission that neither want and that might be her last: assassinating Senator Vellus before he can snuff out Julian's revolution and the jackers she's come to love. Jack Freedman's heart gave out on New Year's Eve 2016, when he was in his mid-forties. But he'd had problems long before then. Born with a slightly defective heart valve, Jack was told he might need surgery by the time he was 60 years old. But when he was hospitalized for a severely fractured leg at age 27, a doctor callously informed him that he'd need open heart surgery in just a few years. Terrified of his "heart thing," he began a wild roller coaster ride between denial, fueled by massive amounts of Xanax and alcohol, and fear-filled cardiology appointments and invasive tests. A brilliant mind, Jack's career as an entertainment lawyer suddenly seemed too confining, so he became a flight attendant for American Airlines. Of course. Now he could jet to his beloved Paris for a weekend, or even for a day. He could party across three continents. And wherever he went, he wrote-in his journals, on a restaurant napkin, on any scrap of available paper. He planned to write a book, and had put together a

manuscript during the last years of his life. His delight in words, his fantastic sense of humor, and his gay "fabulousness" permeate the book, as does his love of family, friends, and lovers. A heart can break in so many ways. Cry, and laugh, with Jack on his journey through his "heart thing."

If he could just master the fugue, he could take the gold and win the right to ascend, bringing everything he's yearned for within reach... including his beautiful ascender patron. But once Eli arrives at the Games, he finds the ascenders are playing games of their own. Everything he knows about the ascenders and the legacies they keep starts to unravel... until he's running for his life and wondering who he truly is. The Legacy Human is the first in a philosophical HopePunk sci-fi series that explores the intersection of mind, body, and soul in a post-Singularity world. Sneaking out of the palace wasn't one of Aniri's best ideas. But she's the Third Daughter of the Queen of Dharia—zero responsibilities and zero royal duties. She's just the backup daughter, in case her older sisters' arranged marriages—to take the crown or broker an alliance—don't quite work out. But once Aniri reaches her 18th birthday, she'll be truly free... and then she can marry the charming fencing instructor she meets for fevered kisses in the forest. But then the impossible happens—a marriage proposal. From a barbarian prince in the north, no less. And if Aniri refuses, the threat of their new flying weapon might bring war. So she agrees to the young prince's proposal, but only as a subterfuge to spy on him, find the weapon, and hopefully avoid both war and an arranged marriage to a man she doesn't love.
