What is the book about? In 1950s London there's an organisation known as The Inquirers, who operate underground and solve mysteries. Who is it aimed at? This is perfect for any reader from aged ...

Young adult book review: Marion Lane And The Midnight Murder: An Inquirers Mystery

Tit-ta has a marginally larger entry and the definition differs slightly: "An infant's word for 'father', daddy, da-da". In 1787 a certain Ayrshire poet penned a poem with the title ...

What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil's Postman's essential guide to the modern media is more relevant than ever. "It's unlikely that Trump has ever read Amusing Ourselves to Death, but his ascent would not have surprised Postman." -CNN Originally published in 1985, Neil Postman's groundbreaking polemic about the corrosive effects of television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell phones to DVDs—it has taken on even greater significance. Amusing Ourselves to Death is a prophetic look at what happens when politics, journalism, education, and even religion become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. "A brilliant, powerful, and important book. This is an indictment that Postman has laid down and, so far as I can see, an irrefutable one." —Jonathan Yardley, The Washington Post Book World

Vishnu, the odd-job man in a Bombay apartment block, lies dying on the staircase landing. Around him the lives of the apartment dwellers unfold: the warring housewives on the first floor, lovesick teenagers on the second, and the quietly grieving widower on the top floor of the building. In a fevered state Vishnu looks back on his love affair with the seductive Padmini and wonders if he might actually be the god Vishnu, guardian of the entire universe. Blending incisive comedy with Hindu mythology and a dash of Bollywood sparkle, The Death of Vishnu is an intimate and compelling view of an unforgettable world.

Explains the attitudes of the dying toward themselves and others and presents a humane approach to relieving the psychological suffering of the terminally ill and their families.

Casey McDaniel had never been so nervous in his life. In just ten minutes, The Meeting, as it would forever be known, would begin. Casey had every reason to believe that his performance over the next two hours would determine the fate of his career, his financial future, and the company he had built from scratch. "How could my life have unraveled so quickly?" he wondered. In his latest page-turning work of business fiction, best-selling author Patrick Lencioni provides readers with another powerful and thought-provoking book, this one centered around a cure for the most painful yet underestimated problem of modern business: bad meetings. And what he suggests is both simple and revolutionary. Casey McDaniel, the founder and CEO of Yip Software, is in the midst of a problem he created, but one he doesn't know how to solve. And he doesn't know where or who to turn to for advice. His staff can't help him; they're as dumbfounded as he is by their tortuous meetings. Then an unlikely advisor, Will Peterson, enters Casey's world. When he proposes an unconventional, even radical, approach to solving the meeting problem, Casey is just desperate enough to listen. As in his other books, Lencioni provides a framework for his groundbreaking model, and makes it applicable to the real world. Death by Meeting is nothing short of a blueprint for leaders who want to eliminate waste and frustration among their teams, and create environments of engagement and passion.

The New York Times bestselling coauthor of *Sex at Dawn* explores the ways in which "progress" has perverted the way we live: how we eat, learn, feel, mate, parent, communicate, work, and die. Most of us have instinctive evidence the world is ending—balmy December days, face-to-face conversation replaced with heads-to-screens zomboidism, a world at constant war, a political system in disarray. We hear some myths and lies so frequently that they feel like truths: Civilization is humankind's greatest accomplishment. Progress is undeniable. Count your blessings. You're lucky to be alive here and now. Well, maybe we are and maybe we aren't. Civilized to Death counters the idea that progress is inherently good, arguing that the "progress" defining our age is analogous to an advancing disease. Prehistoric life, of course, was not without serious dangers and disadvantages. Many babies died in infancy. A broken bone, infected wound, snakebite, or difficult pregnancy could be life-threatening. But ultimately, Ryan argues, were these pre-civilized dangers more murderous than modern scourges, such as car accidents, cancers, cardiovascular disease, and a technologically prolonged dying process? At a time when our ecology, our society, and our own sense of selves feels increasingly imperiled, an accurate understanding of our species' long prelude to civilization is vital to a clear sense of the ultimate value of civilization—and its costs. In *Civilized to Death*, Ryan makes the claim that we should start looking backwards to find our way into a better future.

Best Book of Fall (Esquire) and a Most Anticipated Book of 2021 (Lit Hub) What Has Happened to Fiction in the Age of Platform Capitalism? Since it was first launched in 1994, Amazon has changed the world of literature. The "Everything Store" has not just transformed how we buy books; it has affected what we buy, and even what we read. In *Everything and Less*, acclaimed critic Mark McGurl explores this new world where writing is no longer categorized as high or lowbrow, literature or popular fiction. Charting a course spanning from Henry James to E. L. James, McGurl shows that contemporary writing has less to do with writing per se than with the manner of its distribution. This consumerist logic—if you like this, you might also like ...—has reorganized the fiction universe so that literary prize-winners sit alongside fantasy, romance, fan fiction, and the infinite list of hybrid genres and self-published works. This is an innovation to be cautiously celebrated. Amazon's platform is not just a retail juggernaut but an aesthetic experiment driven by an unseen algorithm rivaling in the depths of its effects any major cultural shift in history. Here all fiction is genre fiction, and the niches range from the categories of crime and science fiction to the more refined interests of Adult Baby Diaper Lover erotica. *Everything and Less* is a hilarious and insightful map of both the commanding heights and sordid depths of fiction, past and present, that opens up an arresting conversation about why it is we read and write fiction in the first place.

"Cites published research demonstrating that the American medicine system is the leading cause of death and injury in the US." -- P. [4] of cover.

Imagine your neighbours begin to die in a series of accidents. Only they aren't accidents... Someone is murdering Greg Unsworth's neighbours and staging the deaths to look like accidents. Greg knows the truth, but when he's grappling with OCD and simply closing his front door and crossing the road are a battle, how is he supposed to stop a serial killer? An Amazon US Top #100 bestseller from the author of *WHERE THE DEAD WALK*, *VESSEL* and *COLD SWEATS & VIGNETTES*. Discover a murder mystery with a difference... Meet Greg Unsworth, afflicted with OCD, who begins to realize a series of fatal accidents on his street are in fact a series of murders. After encountering Beth Grue at the scene of one such crime, the two share their suspicions. Beth, a local librarian, aspiring author, and a woman who has never allowed herself to be defined by her cerebral palsy, agrees they have to do something. So when the police repeatedly dismiss their concerns, they take matters into their own hands, seek to discover the Kettle Street killer's identity and expose him before he claims his next victim... Praise for *Death Stalks Kettle Street*: 'An exciting and compelling read. I loved the brilliant way that disability was explored and humanised.' - Francesca Martinez - Award winning comedian, actress and writer. 'So much more than your average whodunnit.' - Tracy Fenton - THE Book Club, CompulsiveReaders.com 'A book this good is no accident.' - Iain Grant - Bestselling author. 'Will keep you guessing all the way.' - Barbara Copperthwaite - Bestselling crime author. What Amazon reviewers are saying - - completely unputdownable! Not your traditional who-dun-it, *Death Stalks Kettle Street* is a character fueled murder mystery, cleverly written, shining a comedic insight into the quintessential English street. - I could not put this down. And when you think you know who did it, you will most likely be wrong. Loved it. - Wow! I absolutely LOVED this book! I'm always looking to be surprised by the books that I read, I like something a little different—a twist on the norm. And this book had it all for me! - Brilliant, quirky and charming, I could go on and on. John Bowen has written and absolute corker of a book which I struggled to put down. - Beth has cerebral palsy and Greg OCD, however, they complement each other and add that much more heart to the story. I myself have been diagnosed with OCD and found that the subject is very accurately described and given the respect the subject deserves. - A gripping 'cosy' murder mystery, one of the best I've read in a long time. An absolute must for the fans of Agatha Christie. Well written, intelligent, with wonderful, original characters and unpredictable, suspenseful storyline. - What a gem of a book! I loved the characters, the plot, the beautiful prose - just everything! - A thoroughly enjoyable read, with many jaw dropping moments. - I love both quirky reads and old fashioned 'cosy crime' novels; this is a brilliant combining of the two to give a modern challenging 'whodunnit' puzzle with some fabulous lead characters. It has some great twists and turns, enough convincing 'suspects' for you to consider but I think Greg and Beth are the real stars of this book. - So much more than just a murder/mystery book. Full of wonderful characters! - a brilliant murder mystery that keeps you guessing right until the end. With lots of twists and wonderful character moments throughout this is a book I won't easily forget. - If you are a sucker for a great 'who dunnit' that keeps you guessing right until the end then this is definitely one for you - BUT this book is so much more than that!!

#1 NEW YORK TIMES BESTSELLER • The funny, sad, super-honest, all-true story of Chelsea Handler's year of self-discovery—featuring a nerdily brilliant psychiatrist, a shaman, four Chow Chows, some well-placed security cameras, various family members (living and departed), friends, assistants, and a lot of edibles A SKIMM READS PICK • "This will be one of your favorite books of all time."—Amy Schumer In a haze of vape smoke on a rare windy night in L.A. in the fall of 2016, Chelsea Handler daydreams about what life will be like with a woman in the White House. And then Donald Trump happens. In a torpor of despair, she decides that she's had enough of the privileged bubble she's lived in—a bubble within a bubble—and that it's time to make some changes, both in her personal life and in the world at large. At home, she embarks on a year of self-sufficiency—learning how to work the remote, how to pick up dog shit, where to find the toaster. She meets her match in an earnest, brainy psychiatrist and enters into therapy, prepared to do the heavy lifting required to look within and make sense of a childhood marked by love and loss and to figure out why people are afraid of her. She becomes politically active—finding her voice as an advocate for change, having difficult conversations, and energizing her base. In the process, she develops a healthy fixation on Special Counsel Robert Mueller and, through unflinching self-reflection and psychological excavation, unearths some glittering truths that light up the road ahead. Thrillingly honest, insightful, and deeply, darkly funny, Chelsea Handler's memoir keeps readers laughing, even as it inspires us to look within and ask ourselves what really matters in our own lives. Praise for *Life Will Be the Death of Me* "You thought you knew Chelsea Handler—and she thought she knew herself—but in her new book, she discovers that true progress lies in the direction we haven't been."—Gloria Steinem "I always wondered what it would be like to watch Chelsea Handler in session with her therapist. Now I know."—Ellen DeGeneres "I love this book not just because it made me laugh or because I learned that I feel the same way about certain people in politics as Chelsea does. I love this book because I feel like I finally really got to know Chelsea Handler after all these years. Thank you for sharing, Chelsea!"—Tiffany Haddish
