A true account of going through UCLA's famed Daniel Freeman Paramedic Program—and practicing emergency medicine on the streets of Los Angeles. Nine months of tying tourniquets and pushing new medications, of IVs, chest compressions, and defibrillator shocks—that was Kevin Grange's initiation into emergency medicine when, at age thirty-six, he enrolled in the "Harvard of paramedic schools": UCLA's Daniel Freeman Paramedic Program, long considered one of the best and most intense paramedic training programs in the world. Few jobs can match the stress, trauma, and drama that a paramedic calls a typical day at the office, and few educational settings can match the pressure and competitiveness of paramedic school. Blending months of classroom instruction with ER rotations and a grueling field internship with the Los Angeles Fire Department, UCLA's paramedic program is like a mix of boot camp and med school. It would turn out to be the hardest thing Grange had ever done—but also the most transformational and inspiring. An in-depth look at the trials and tragedies that paramedic students experience daily, Lights and Sirens is ultimately about the best part of humanity—people working together to help save a human life.

The basis for the movie starring Kathy Bates, Ambulance Girl is an inspiring story by a woman who found, somewhat late in life, that "in helping others I learned to help myself." Jane Stern was a walking encyclopedia of panic attacks, depression, and hypochondria. Her marriage of more than thirty years was suffering, and she was virtually immobilized by fear and anxiety. As the daughter of parents who both died before she was thirty, Stern was terrified of illness and death, and despite the fact that her acclaimed career as a food and travel writer required her to spend a great deal of time on airplanes, she suffered from a persistent fear of flying and severe claustrophobia. Yet, this fifty-two-year-old writer decided to become an emergency medical technician. Stern tells her story with great humor and poignancy, creating a wonderful portrait of a middle-aged, Woody Allen-ish woman who was "deeply and neurotically terrified of sick and dead people," but who went out into the world to save other people's lives as a way of saving her own. Her story begins with the boot camp of EMT training: 140 hours at the hands of a dour ex-marine who took delight in presenting a veritable parade of amputations, hideous deformities, and gross disasters. Jane—overweight and badly out of shape—had to surmount physical challenges like carrying a 250-pound man seated in a chair down a dark flight of stairs. After class she did rounds in the emergency room of a local hospital. Each call Stern describes is a vignette of human nature, often with a life in the balance. From an AIDS hospice to town drunks, yuppie wife beaters to psychopaths, Jane comes to see the true nature and underlying mysteries of a town she had called home for twenty years. Throughout the book we follow her as she gets her sea legs, bonds with the firefighters who become her colleagues, and eventually, comes to be known as Ambulance Girl.

When the author was a kid, a big white sleek ambulance squatted like a lion in the driveway next door, always ready to go, and sometimes it did, roaring down the street. Today he is a MICA Flight Paramedic with decades of varied experience in 'a life of extremes' in an Australian ambulance service. He does shifts at base on-call, and teaches another generation of paramedics now. Loves his job. A list of well-known events that includes Victoria's Black Saturday Fires and the 2005 Bali Bombing - he was trying to get married when that call came in - mark two dark extremes. Technical matters - trauma treatment decisions, and the limits of aviation, for example - are explained. And this book includes the little things like the time the supermarket aisle was alive with the sound of music from an ex-patient's kid's lips: 'Thanks for looking after Daddy.' Darren couldn't have put it better himself, and it made his heart sing. This book tells what is like to be Darren Hodge on the end of a line, what it is like to be a paramedic. Open, honest reports, warts and all, this memoir is an unflinching account of how it feels, say, to pluck people from imminent death. And there are some laughs on the way...

Experience the rush as an emergency medic details some of the most formative calls of his career in the Big Easy in this action-packed memoir. Known as one of America's most dangerous cities, New Orleans plays host to incidents ranging from the tragic and disturbing to the completely bizarre—and during his career as an emergency medic, Jon McCarthy saw it all. He chronicles some of the most formative calls of his career in this autobiography that reads like crime fiction. McCarthy demonstrates with detail and clarity that the difficult choice is often the right choice. While not for the faint of heart, each entry in this collection provides poignant insight into the bonds between medics and the people and city they serve. Praise for Hard Roll "One of the things Jon McCarthy does so well in this book is capture that combination of adrenaline, dark humor, and old-fashioned heroism that makes up the daily life of a first responder." —Susan Larson, NPR's The Reading Life "Masterfully describes the exhilaration of touching a patient at their most vulnerable moment and the emotional toll it takes when the outcome is not favorable and the sheer joy when medical experience meets the opportunity to make a difference. . . . A must-read as one tries to grasp the social inequities, fragility of the war on crime, and paucity of basic healthcare that plagues our urban communities." —Juliette M. Saussy, FACEP, former director and medical director of the New Orleans EMS, former paramedic, City of New Orleans

A former paramedic's visceral, poignant, and mordantly funny account of a decade spent on Atlanta's mean streets saving lives and connecting with the drama and occasional beauty that lies inside catastrophe. In the aftermath of 9/11 Kevin Hazzard felt that something was missing from his life—his days were too safe, too routine. A failed salesman turned local reporter, he wanted to test himself, see how he might respond to pressure and danger. He signed up for emergency medical training and became, at age twenty-six, a newly minted EMT running calls in the worst sections of Atlanta. His life entered a different realm—one of blood, violence, and amazing grace. Thoroughly intimidated at first and frequently terrified, he experienced on a nightly basis the adrenaline rush of walking into chaos. But in his downtime, Kevin reflected on how people's facades drop away when catastrophe strikes. As his hours on the job piled up, he realized he was beginning to see into the truth of things. There is no pretense five beats into a chest compression, or in an alley next to a crack den, or on a dimly lit highway where cars have collided. Eventually, what had at first seemed impossible happened: Kevin acquired mastery. And in the process he was able to discern the professional differences between his freewheeling peers, what marked each—as he termed them—as "a tourist," "true believer," or "killer." Combining indelible scenes that remind us of life's fragile beauty with laugh-out-loud moments that keep us smiling through the worst, A Thousand Naked Strangers is an absorbing read about one man's journey of self-discovery—a trip that also teaches us about ourselves.

This book captures the essence of an important chapter in television history: the origins of the Emergency!, a dramatic series significant beyond entertainment. When the world premiere of Emergency! was first broadcast in 1972, there were only 12 paramedic units in all of North America. Ten years later, more than half of all Americans were within ten minutes of a paramedic rescue or ambulance unit. That simply would not have happened without the influence of Emergency! Emergency! followed the daily lives of a pair of Los Angeles County Fire Department firefighters/paramedics, along with their colleagues at Station 51 and the emergency room staff of Rampert General Hospital. This program introduced audiences from all over the world to the concept of pre-hospital care, along with fire prevention and CPR.
