curriculum issued for Academic Year 2020-2021, following the latest NCERT Textbook. Latest Typology OF Questions Latest Typologies of Questions like Multiple Choice Questions, Tabular based Questions, Passage based Questions, Picture based Questions, Fill in the Blanks, Match the Following, etc. have been exclusively developed by the Oswaal Editorial Board and included in our Question Banks. Answers available on www.oswaalbooks.com 'Free Solutions available for all the worksheets on our website www.oswaalbooks.com

Explores the workings of the endocrine system in the human body.

Some of the Benefits of Practicing from Oswaal Worksheets are

- Oswaal Worksheets aim at providing comprehensive practice material for every chapter to ensure that every concept is revised in totality.
- These are prepared by experienced teachers who have translated their expertise into making these worksheets a wholesome study package.
- Every worksheet contains a mix of questions, for which the maximum marks and time are mentioned to facilitate exam oriented preparation.
- These strictly follow the ICSE Curriculum
- They are arranged Chapter-wise with ample space for writing answers
- Previous Years' Board Questions are included
- 'Answering Tips' and 'Examiner Comments' for exam oriented study Chapter-wise Presentation
- Oswaal ICSE Worksheets aim at providing comprehensive practice material Chapter-wise to ensure that every concept is revised in totality.
- Exam Preparatory Material
- Previous Years' Board Questions & Latest Board Solved paper are included
- Ample Space for Writing Answers
- Each worksheet has a blend of questions with ample space for writing answers, thereby enabling thorough practice
- Latest ICSE Curriculum
- Strictly based on the latest CISCE curriculum and examination specifications for Academic Year 2020-2021, for class 10
- Latest Typology OF Questions
- Latest typology of questions are included as per the latest design of the question paper issued by CISCE
- Oswaal Exam Tools
- 'Answering Tips' and 'Examiner Comments' for exam oriented study

The brain ... There is no other part of the human anatomy that is so intriguing. How does it develop and function and why does it sometimes, tragically, degenerate? The answers are complex. In *Discovering the Brain*, science writer Sandra Ackerman cuts through the complexity to bring this vital topic to the public. The 1990s were declared the "Decade of the Brain" by former President Bush, and the neuroscience community responded with a host of new investigations and conferences. *Discovering the Brain* is based on the Institute of Medicine conference, Decade of the Brain: Frontiers in Neuroscience and Brain Research. *Discovering the Brain* is a "field guide" to the brain--an easy-to-read discussion of the brain's physical structure and where functions such as language and music appreciation lie. Ackerman examines How electrical and chemical signals are conveyed in the brain. The mechanisms by which we see, hear, think, and pay attention--and how a "gut feeling" actually originates in the brain. Learning and memory retention, including parallels to computer memory and what they might tell us about our own mental capacity. Development of the brain throughout the life

span, with a look at the aging brain. Ackerman provides an enlightening chapter on the connection between the brain's physical condition and various mental disorders and notes what progress can realistically be made toward the prevention and treatment of stroke and other ailments. Finally, she explores the potential for major advances during the "Decade of the Brain," with a look at medical imaging techniques--what various technologies can and cannot tell us--and how the public and private sectors can contribute to continued advances in neuroscience. This highly readable volume will provide the public and policymakers--and many scientists as well--with a helpful guide to understanding the many discoveries that are sure to be announced throughout the "Decade of the Brain."
