You know what happens when bad boys get what they wish for? Everything. . . New York Times Bestselling Author Lori Foster Playing Doctor Attitude makes a huge difference in bed. It could be Axel Dean's motto. The sexy physician likes his women with sensual moxie, and Libby Preston definitely seems to fit that bill. There's that naughty grin. That hot bod. Her eager kisses and cheeky insults. Her. . .admitted virginity. Whoa. Okay, cue cold shower. Axel may not be an honorable man, but he has his limits. Except Libby won't take no for an answer. She's determined to have someone show her what she's been missing, and suddenly, Axel can't bear to think of Libby playing doctor with anyone else. . . USA Today Bestselling Author Erin McCarthy The Lady of the Lake Pro baseball player Dylan Diaz is pretty sure he's going to hell. While they've been scrupulously making love according to thermometers and calendars, high-flying sister Jo has been having the most explosive sex of her life . . . with her married boss. And now she's going to have to deal with the consequences -- with or without Brett. All of this seems a million lifetimes away for Caroline, who dreams of swapping coffee mornings for cocktails and wonders if her marriage to sweet but predictable Simon has passed its best-before date . . . Eight people trying to manage their lives. Four sisters always there for each other. But can they really have it all? HOLDING THE BABY just goes to show that a family doesn't always have to be 1+1+2.4 children . . .

Financial Risk Management and Derivative Instruments offers an introduction to the riskiness of stock markets and the application of derivative instruments in managing exposure to such risk. Structured in two parts, the first part offers an introduction to stock market and bond market risk as encountered by investors seeking investment growth. The second part of the text introduces the financial derivative instruments that provide for either a reduced exposure (hedging) or an increased exposure (speculation) to market risk. The fundamental aspects of the futures and options derivative markets and the tools of the Black-Scholes model are examined. The text sets the topics in their global context, referencing financial shocks such as Brexit and the Covid-19 pandemic. An accessible writing style is supported by pedagogical features such as key insights boxes, progressive illustrative examples and end-of-chapter tutorials. The book is supplemented by PowerPoint slides designed to assist presentation of the text material as well as providing a coherent summary of the lectures. This textbook provides an ideal text for introductory courses to derivative instruments and financial risk management for either undergraduate, masters or MBA students.

Matisse Osgood is a New York City girl through and through. She buys her clothes at Andy's Cheapies, watches indie films at the Angelika, and wouldn't be caught dead on a hayride. But when her father gets sick and Matisse's parents decide to leave Man-hattan for a small town in upstate New York, her perfect world crumbles. As Matisse trudges through life in Prague, she dreams of waking up in her apartment on West 78th Street with a father who's well enough to walk with her in Central Park and a mother who doesn't pretend that everything is okay. When rumors surround Matisse at school and her father's symptoms worsen, Matisse realizes that the friends she's making in Prague are the kind you can count on. They help Matisse find the strength to reach out to her father, who may not be as far from her as she thought. And one particular farm boy shows Matisse that country living is a lot more magical than she ever imagined.
