Traditional automatic transmissions can also beat manual fuel economy. Today's automatics tend to have more forward gears (those are gears that move the car forward, not in reverse) than manual transmissions do. Those extra gears help the engine deliver the same power to the wheels while working at a lower engine speed, which saves gas.

Generally, a car with a manual gearbox will get about 5% better mileage than an automatic. But automatic transmissions are so much better than they used to be, last for hundreds of thousands of miles. I would not consider an automatic for city driving. I would prefer a manual for a truck, if I pulled a trailer on the highways quite a lot.

Cars with manual transmission used to get significantly better gas mileage compared with automatics. A major factor that halted the gas mileage of cars that use automatic transmissions was the use of a torque convertor that coupled the engine between the mechanical gears. Manual transmissions don ' t have this convertor and use a clutch instead.
