The Master Production Schedule forms the basis of communication between sales and manufacturing. Using the MPS as a contract between sales and production means that sales can make valid order promises. the MPS is not a rigid plan. MPS is a dynamic plan and can be changed when there are changes in demand or capacity.

Inventory Management 101 □ The Master Production Schedule ...

A master production schedule is a plan for individual commodities to be produced in each time period such as production, staffing, inventory, etc. It is usually linked to manufacturing where the plan indicates when and how much of each product will be demanded. This plan quantifies significant
