Nursing

A nursing diagnosis is a clinical judgment concerning human response to health conditions/life processes, or a vulnerability for that response, by an individual, family, group, or community. A nursing diagnosis provides the basis for the selection of nursing interventions to achieve

Nursing

makes formulating nursing diagnoses and creating individualized care plans a breeze.

Updated with the most recent NANDA-I approved nursing diagnoses, this reference shows how to build customized care plans in three steps: assess, diagnose, plan.
