Object-Oriented Design - LeetCode Discuss

OOD questions generally all have the same beginning. There is an intentionally vague set of initial constraints, and then a moment of awkward silence while the candidate mentally screams. In contrast to most typical interview questions, there isn't really a right answer that the interviewer is looking for. Really these problems are about one thing: can the candidate articulate and handle the trade offs between "needs to work now" and "needs to handle changes later".
