Gather an escort. Acquire a dragon hoard. Build an empire ... Steven Whipp, a normal, poor college student, is kissed and shot on the night of his twentieth birthday. He realizes three things: he's bulletproof, he's a dragon, and everything he's ever wanted is within his reach. But the attempts on his life are just the beginning of his troubles. Steven is a Dragonsoul-a magical race of beings who have thrived, hidden from the eyes of humans, in control of the world. And not just any Dragonsoul, but the last in a long line of Arch-Sorcerers, thought long dead. Now he is being hunted, and he must unlock his powers through battle and sex or ancient forces and old feuds will destroy him and all he loves. From the Author of the LitRPG epic War God's Mantle comes a brand new Pulp Harem Adventure! Disclaimer: Denver Fury (American Dragons Book 1) is a shoot-em-up, action adventure, urban fantasy novel which is not intended for readers under the age of 18. This novel contains swearing, violence, and a harem of beautiful shapeshifting women that the hero regularly sleeps with-and he does so gladly.

This is the second volume in a series on wide-ranging topics relating to objects in the Antiquities collection of the Getty Museum. It consists of seven articles in English, German, and Italian. Chronologically ranging from Pier Giovanni Guzzo's presentation of two early sixth-century-B.C. silver cups to a technical analysis by Maya Elston and Jeffrey Maish of a rare late-antique wooden sarcophagus from Egypt, Despoina Tsiafakis discusses a South Italian bronze askos in the shape of a siren, and Gina Salapata analyzes a pair of South Italian terra-cotta arulae. As a companion text to his publication of an important jewelry assemblage in Greek Gold from Hellenistic Egypt (see p. 13), Michael Pfrommer presents an in-depth scholarly interpretation of the jewelry. Janet Burnett Grossman has compiled a catalogue of portraits of Alexander the Great in various media from the Getty Museum; and two life-size bronze portraits of delicate, thought to be from Gaul, are the topic of John Pollini's detailed discussion.

Based on anthropological field research, *Unearthing Gender* analyzes folk songs sung primarily by lower caste women in north India while labouring in the fields, at weddings, during travels, and in other settings. Smits Jassal uses these songs to explore how ideas of caste, gender, sexuality, labour, and power may be strengthened, questioned and fine-tuned through music. At the heart of the book is a library of songs, in their original Bhojpuri and in English translation, framed by Jassal's analytic insights into the complexities of gender and power. The power of these songs, Jassal argues, lies in hinting and suggesting themes rather than directly addressing them: women sing what they often cannot talk about. Women's lives, their feelings, their relationships, and social and familial bonds are persuasively presented in song, and for the ethnographer, the songs provide a safer, more natural language for these women to articulate opinions than the standard ethnographic interview. In this way, the songs offer an entry into the culture and everyday lives that produce them and embody the voices of a marginalized group that has rarely been the focus of systematic analytical inquiry.
