Procurement Systems - Mosaic Projects

The procurement process is the name for all of the steps a company must take to acquire the products and services it needs to do business. Typically a procurement process will start from the minute a purchase request is placed, and involve steps like identifying suppliers, negotiating price, invoice approval, right through to receiving the goods.

Procurement Process 101: The Stages in the Procurement Process

Get Free Procurement Systems A Guide To Best

A procurement process map is an effective way for a business to define its procurement in business processes and the steps involved within a procurement department. The aim of a procurement process flow chart is to help identify the exact process in which an organisation can obtain products and services efficiently and cost effectively.
