timeless parable about time." - Publisher's Weekly (Starred) The Eisner Award-winning "Best Original Graphic Novel" is back and bigger than ever, and in trade paperback for the first time! Welcome to Anorev, a land that has no concept or understanding of time because time itself has ceased to exist. A world where children have never grown up, machines have forgotten if they were built by humans or if they built humans themselves, and all clocks have been stopped at the same time since time itself stopped. This has been the way of things for longer than anyone can remember, until 314 dapper-looking gentlemen rain down from the sky to start the world anew. Now Ayden, the only boy to still ask questions; Zoe, the robot girl all other machines hold dear; and the Dapper Man known only as "41" must repair whatever it was that caused time to stop, understand their true place in this world, and learn what "tomorrow" really means. But destiny is not always easy and choices must be made that will decide the fate of this land. The sun is setting for the first time in memory, and once that happens, everything changes!

Dive into this visually stunning, middle-grade graphic novel about a spunky Vietnamese American surfer girl and her cantankerous talking cat who plunge into a fantasy world of oceanic marvels . . . and mayhem! Trot, a Vietnamese American surfer girl, and Cap'n Bill, her cranky one-eyed cat, catch too big a wave and wipe out, sucked down into a magical underwater kingdom where an ancient deep-sea battle rages. The beautiful Sea Siren mermaids are under attack from the Serpent King and his slithery minions--and Trot and her feline become dangerously entangled in this war of tails and fins. This beautiful graphic novel was inspired by The Sea Fairies, L. Frank Baum's "underwater Wizard of Oz." It weaves Vietnamese mythology, fantastical ocean creatures, a deep-sea setting, quirky but sympathetic main characters, and fast-paced adventure into an imaginative, world-building story.

to explore complex and evolving ideas about young people. In turn, this collection argues, contemporary works for young people that draw on Victorian literature and culture ultimately reflect our own disruptions and upheavals, particularly as they relate to child and adolescent readers and our experiences of them. The essays therein suggest that we struggle now, as the Victorians did then, to assert a cohesive understanding of young readers, and that this lack of cohesion is a result of or a parallel to the disruptions taking place on a larger (even global) scale.

New York Times Bestseller Men and Style reaches beyond standard “what to wear” advice: It is equal parts style guide and intriguing conversation about the masculine identity within the world of fashion. David Coggins explores the history of men’s style and learns from some of the most notable tastemakers in the industry and beyond. Its essays and interviews discuss the lessons men learned from their fathers, the mistakes they made as young men, and how they emerged to become better men. Some of the most dapper men in the world discuss bad mustaches, misguided cologne choices, and unfortunate prom tuxedos. All the men here have arrived at a place in the world and have a keen understanding about how they fit in it. Men and Style celebrates singular men who’ve lived well and can tell us about how they earned their worldview. They’re smart enough to absorb the wisdom that’s hidden in the world, and even smarter to wear that wisdom lightly.
