Providing over 200 job descriptions and updated to take account of the new Age Discrimination legislation, this book is the most comprehensive and up-to-date resource available to create meaningful descriptions for your employees. This book offers a unique time-saving approach in the form of a 'job description builder' which allows you to select featured job elements and build a complete and well-structured job description. Divided into two parts, the first enables quick and easy assembly and personalization of any job description, across a wide range of sectors such as administration and management, finance and accountancy, and human resources. Part Two allows you to select from hundreds of job elements, such as providing care and guidance, client relations, and project management. This edition provides online access to each job description so you can personalize them to suit your own circumstances, saving hours of valuable time.

Every issue of easyuni is organised in such a way that crucial information is succinctly delivered to you. We are also constantly exploring new mediums to maximise the reach of information to you. That’s the main reason easyuni magazine was started; we found that many readers would benefit from this information in this form. We believe this is only logical as we’ve received an overwhelming response from our readers for the past two issues which has motivated us to bring you even more quality content in subsequent issues. Among the many improvements on easyuni.com is the revamped course recommendation tool – a step closer towards our vision of enhancing students’ capacity to make the right decisions about their tertiary education. The new course recommender is aimed at students who are not very certain about what to study, and our intelligent system recommends courses based on the personality and interests of an individual. As for the magazine, we have also listed some of the top universities in Asia that offer the courses covered in this issue along with numerous ways to apply for them. We have what we believe is the best tertiary education advice to help you make better decisions about your future. Every bit of information is helpful in guiding you to reach your higher education goals. We enjoyed getting this magazine out to you, and we believe you’ll enjoy reading every page.

For more than 20 years, Network World has been the premier provider of information, intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations. Readers are responsible for designing, implementing and managing the voice, data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce.

Every high-tech sales team today has technical pros on board to “explain how things work,” and this success-tested training resource is written just for them. This newly revised and expanded third edition of an Artech House bestseller offers invaluable insights and tips for every stage of the selling process. This third edition features a wealth of new material, including new chapters on business-driven discovery, white boarding, trusted advisors, and calculating ROI. This invaluable book equips new sales engineers with powerful sales and presentation techniques that capitalize on their technical background—all spelled out step-by-step by a pair of technical sales experts with decades of eye-popping, industry-giant success under their belt.

Though India has become a lucrative market for various companies, the unique characteristics of its market throw up a variety of challenges. Sales and Distribution Management: An Indian Perspective aims to understand these challenges. Building on an understanding of the consumer decision process, the book defines the roles of marketing and selling strategies. Secondly adopting a customer-centric approach to sales and distribution management, the book deals with making strategic decisions keeping the end consumer in mind and making operational decisions keeping the channel member and the sales force in focus. It highlights the importance of behavioural transactions in completing a sale and also discusses the service orientation required for selling different products. With its unique approach, generalized frameworks, elaborate research and extensive data analysis, this book will be of immense value to sales and distribution professionals of the Indian corporate sector and marketing departments of national and multinational companies in India. It is a highly recommended reading for students and teachers in Indian business schools studying Sales Management and Distribution Management.
