SAP Customer Experience has evolved CRM

The Practical Guide to CRM Data Security in 2018. A great deal of responsibility falls on companies asking for customer data. Such a request is usually made under the auspice of improving services -- which is a reasonable proposition if you 're a customer -- and there should be a reasonable expectation that the customers ' data will be protected. After all, making data available to one commercial entity -- as partial exchange for improved services to-be-rendered -- hardly means it's ...

The sensitive access is not limited to only the direct reports as the security system has no way of understanding that access in the manager role needs to be restricted to only the direct reports (the people who are part of the manager PD profile). The context solution introduced as part of SAP R/3 4.7 seeks to address this very gap in HR security.
