Text messages are considered professional communications and should be noted on the patient's record, as well as any responses received and the time and date. Use similar terms to those you would use in emails or letters. Avoid abbreviations or 'text speak'. It's useful to have a system in place for reviewing and approving standard messages.

## Text message communication in general practice - The MDU

This guide is for managers or workers in frontline services organisations who communicate by text with survivors, or have responsibility or influence over policies on worker communications with survivors. Benefits of communicating via text with survivors Text messaging is a very common way that frontline practitioners communicate with survivors.
