Amazon.com: The Softwire: Betrayal on Orbis 2 ...
Betrayal on Orbis 2. Betrayal on Orbis 2 is the second novel in The Softwire series. It was released on 25 March 2008. Betrayal opens with the enslaved children being moved to Orbis 2 for their second rotation of servitude. Their hopes for a better position within the social hierarchy (due to JT's heroic efforts on Orbis 1) are dashed suddenly when their aged and feeble Guarantor tries to sell them into a seedy, underground market.

The Softwire - Wikipedia
The Softwire: Betrayal on Orbis 2 by PJ Haarsma continues the exciting adventures of the space orphans first portrayed in The Softwire: Virus on Orbis 1 (Softwire). The action begins in the very first sentence of the book and continues throughout the fast-paced book, but not without quiet moments of reflection interspersed to bring real emotional depth to the story.

The Softwire: Betrayal on Orbis 2 book by P.J. Haarsma
"Softwire: Betrayal on Orbis 2" (Reviewed by Ann Wilkes NOV 21, 2008) Johnny Turnbull saves the rings of Orbis 1 only to be sold to another slaver on Orbis 2. His guarantor from Orbis 1 has hit financial ruin and the human children that are serving him to fulfill their partents' work rule are all the assets he owns.

VIRUS ON ORBIS 1 is the first book in THE SOFTWIRE series, and it will be interesting to see where the author takes Johnny next. The majority of this story features him battling both the Trading Council and Orbis's rulers, the Keepers. After reading this great first installment, you'll definitely be ready for the next book in the series.

On his second rotation of service, Johnny Turnbull uses his ability as a human softwire to communicate with the Samirans and free them from their enslavement.

The only person who can communicate with the Samirans, a race of large aquatic aliens who have cooled the crystals on Orbis for nearly two thousand rotations, Johnny Turnbull must race against time to appease them when they become increasingly agitated and threaten to destroy Orbis. An ALA Quick Pick. Reprint.

A conclusion to the series that includes Virus on Orbis 1 finds Scion protector Johnny Turnbull training to become a Space Jumper against the wishes of his girlfriend and wondering if he will ever learn the truth about his destiny.

A landmark in the conversation about race and religion in America. "They put him to death by hanging him on a tree." Acts 10:39 The cross and the lynching tree are the two most emotionally charged symbols in the history of the African American community. In this powerful new work, theologian James H. Cone explores these symbols and their interconnection in the history and souls of black folk. Both the cross and the lynching tree represent the worst in human beings and at the same time a thirst for life that refuses to let the worst determine our final meaning. While the lynching tree symbolized white power and "black death," the cross symbolizes divine power and "black life" God overcoming the power of sin and death. For African Americans, the image of Jesus, hung on a tree to die, powerfully grounded their faith that God was with them, even in the suffering of the lynching era. In a work that spans social history, theology, and cultural studies, Cone explores the message of the spirituals and the power of the blues; the passion and of Emmet Till and the engaged vision of Martin Luther King, Jr.; he invokes the spirits of Billie Holliday and Langston Hughes, Fannie Lou Hamer and Ida B. Well, and the witness of black artists, writers, preachers, and fighters for justice. And he remembers the victims, especially the 5,000 who perished during the lynching period. Through their witness he contemplates the greatest challenge of any Christian theology to explain how life can be made meaningful in the face of death and injustice.

This is Henri Nouwen's personal account of a pilgrimage to Santiago Atitlan, a Mayan town in the highlands of Guatemala. It was there that an American priest, Father Stanley Rother, was murdered by a death squad in the parish where he served. In traveling to Santiago Nouwen hoped to learn more about this modern martyr about the faith that drew him there, and the love that held him in place, even when his life was threatened.

When the children of the seed ship, Renaissance, are orphaned in outer space, twelve-year-old Johnny Turnbull and his sister Ketheria are sold as knudniks on the Rings of Orbis. With all hopes of a better life destroyed, Johnny and his sister must now spend their days sifting through trash for their new guarantor.But when the central computer on Orbis mysteriously malfunctions the Citizens begin to point their fingers at the newcomers. It is discovered that Johnny is a Softwire; a special gift that allows him to enter any computer with only his mind. Johnny is the first human to ever exhibit this trait and no one understands why.Soon Johnny is embroiled in a struggle between the Keepers who rule Orbis and the Trading Council who wants him dead. As he learns to harness his newfound ability, Johnny uncovers a virus wreaking havoc inside their precious computer. Now he must convince the powers that be on Orbis before they make war on each other and destroy his new home - along with Johnny's dream of a better life.In the first episode of The Softwire, PJ Haarsma launches readers into an extraordinary new universe of power, corruption, and aliens.Foreword by Nathan Fillion (Firefly, The Rookie)

Is the language of mission clearly evident across the broad reaches of time? Or has the modern missionary enterprise distorted our view of the past? Michael Stroope investigates how the modern church has come to understand, speak of, and engage in the global expansion of Christianity, offering a hopeful way forward in this pressing conversation.

This searing memoir of an American nun who was abducted and tortured in Guatemala--and continues to search for healing and justice--shows that the human spirit is a force stronger than violence and fear.

The Hollows is gripped in unrest and on the brink of civil war as an insurgency of anarchists rise, and brother and sister vie for the throne in the second novel in the critically hailed Legacy of the Mercenary King series which Brandon Sanderson called “excellent.” Michael Kingman thought he was going to die by the executioner’s axe, forever labeled as a traitor. Still alive, and under the protection of the Orbis Mercenary company, Michael and his family and friends are deeply involved in the seemingly rival conspiracies that are tearing The Hollows apart. With the death of the King, both the Corrupt Prince and his sister Serena are vying for the throne, while the Rebel Emperor is spreading lies amongst the people, and all of them want Michael dead. This is a story of betrayal, murder, and rebellion, and in this direct sequel to the debut novel The Kingdom of Liars, also some hope for justice. For readers who love the intrigue and widening scope of epic fantasy like Sanderson’s Mistborn and Week’s The Black Prism, you will find your next must-read fantasy series.
