When it comes to controls, everything on the Vivitar 285HV is manual, and everything is designed from the 1970's. The power control and settings are in a manual dial which clicks into place when turned. The zoom is controlled by pulling the flash head in and out.

Vivitar 285HV Review | Rapid Gear Review

The Vivitar 285 is not only the world's most popular flash of all time, it is also extremely modular: you can buy all sorts of crazy and sane accessory filters, zoom filters, light modifiers, cables, sensors and battery packs and more for it. A slightly newer model, the Vivitar 285 and today's Vivitar 285 HV, adds an integral zoom head.

Vivitar 285 HV Flash - Ken Rockwell

On the front of the flash is the Auto Thyristor Sensor. This small device detects the amount of light present when the flash is triggered, metering the level of illumination on the subject. The outer collar of the sensor is the mode selector. This rotates to set for different aperture ranges while in the automatic mode, or to set for manual ...

Used Vivitar 285HV Flash 233965 B&H Photo Video

Product Description The built-in variable power of the Vivitar 285HV auto professional flash provides you with fill flash and the ability to shoot properly exposed rapid-sequence pictures. This vertical bounce flash gives your photographs soft, professional lighting.

Amazon.com : Vivitar 285HV Flash for SLR Cameras (Black ...

Many years ago, back when we put long thin strips covered with photosensitive emulsion in our cameras I was introduced to the Vivitar 285HV. I went to a camera shop I trusted and asked what they recommended for a very portable lighting setup. I was handed a pair of 285HV's, umbrellas, stands, mounts, a sync cord and a Wein "peanut".

Amazon.com: Customer reviews: Vivitar 285HV Flash for SLR ...

Got a new Vivitar 285HV and having trouble using the flash? No problem! This video will describe how to use the flash on your new camera and gives some other great tips for new owners! The flash on this camera can be a little different to use than an automatic flash because you have to manually set the settings. Since you can see what the picture looks like if you aren't satisfied you can use ...

How to Use the Vivitar 285HV professional camera flash ...

STEPHEN H The Vivitar 285HV flash will certainly work with the Nikon FM10 SLR. Maximum synch speed for the FM10 is 1/125 for any electronic flash. TIM P If the FM10 has a hot shoe, it should work fine. You will need to use the manual setting and watch your exposure.

Vivitar 233965 285HV Non-Dedicated Shoe Mount Flash VIV-285HV

One flash is a Vivitar 285HV and the other is its 285 (non-HV) older brethren. The key difference between these two models is that the HV has an input for connecting to a high voltage battery pack. Doing so will greatly speed up recycling times. The normal recycle from a full-power pop can be over 7 seconds.

What's in the Bag? Vivitar 285HV Flash - Studiography

Nikon D90 & Vivitar 285 hv. Discussion in 'Nikon' started by russell_tobias, Jul 17, ... So yes, it will work perfectly well on a D90 as a non-TTL thyristor-auto or manual flash. Not the most convenient flash to use given the considerable advances in flash control now available with iTTL (per Peter's post), but photographers used these simple ...
