Zen Pool teaches you all of these practical insights and skills, then goes one step further - showing you how to improve your total game by increasing your physical, mental, and spiritual awareness in the present moment. Many readers have described remarkable improvements after reading the lessons taught in this book - and many professional players have reported winning more tournaments. The wisdom and secrets herein have been distilled from a lifelong and fruit bearing quest, including study with, and of, many pool masters. So open Zen Pool, begin your journey, and let three-time national billiards champion Max Eberle awaken the master within you.

This volume provides, for the first time, a pan-European view of the development of written languages at a key time in their history: that of the 16th century. The major cultural and intellectual upheavals that affected Europe at the time - Humanism, the Reformation and the emergence of modern nation-states - were not isolated phenomena, and the evolution of the orthographical systems of European languages shows a large number of convergences, due to the mobility of scholars, ideas and technological innovations throughout the period.

Marketing visionary Martin Lindstrom has been on the front line of the branding for over twenty years. In Brandwashed, he turns the spotlight on his own industry, drawing on all he has witnessed behind closed doors, exposing for the first time the full extent of the psychological tricks and traps that companies devise to win our hard-earned money. Lindstrom reveals eye opening details such as how advertisers and marketers target children at an alarmingly young age (starting when they are still in the womb), what heterosexual men really think about when they see sexually provocative advertising, how marketers and retailers stoke the flames of public panic and capitalize on paranoia over diseases, extreme weather events, and food contamination scares. It also presents the first ever evidence to prove how addicted we are to our smartphones, and how certain companies (like the maker of a very popular lip balm), purposely adjust their formulas in order to make their products chemically addictive, and much, much more. Brandwashed is a shocking insider's look at how today's global giants conspire to obscure the truth and manipulate our minds, all in service of persuading us to buy.
